# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On November 30, 1975
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
December 1 - 9, 1975

-- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of December 11, 1975 (based on reports from exporters during the week ending November 30, unless otherwise noted):

ESTIMATE OF SOVIET GRAIN PRODUCTION SHARPLY REDUCED:

Based on recent official statements by USSR authorities, the USDA has reduced its estimate of 1975 Soviet grain production to 137 million metric tons (MT); 65 million MT of wheat, 62 million MT of coarse grains, and 10 million MT of miscellaneous grains. The new estimate is almost 80 million MT below the original Soviet target for 1975, almost 60 million MT less than the 1974 crop, and will be the smallest Soviet grain crop since the 1965 harvest of 121 million MT.

USDA officials are not forecasting an increase in 1975/76 Soviet grain imports from the 27 million MT level estimated on October 24 for the current July-June season. In the October 24 estimate, import handling capacity was suggested as a limiting factor, and unloading delays that have arisen since tend to confirm that imports will probably not significantly exceed the earlier estimate.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 354,000 MT, to a total of 23.0 million MT. Major increases in commitments were to the Republic of Korea (57,400 MT), Taiwan (54,000 MT), Algeria (47,500 MT), and Chile (41,100 MT). A 46,400 MT increase to the Soviet Union reflected transfers from sales previously reported as either optional origin or sales to other destinations.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 increased by 390,500 MT. Corn commitments increased by 394,200 MT with major increases of 93,300 MT and 66,200 MT to the European Community (EC) and Spain, respectively. A 153,200 MT increase in the commitment to the USSR reflects transfers from optional origin rather than new sales. Total sorghum commitments declined by 24,400 MT, with a decline of 35,600 MT in the commitment to Poland only partially offset by higher commitments to several other destinations.

Soybeans: The apparent export commitment for 1975/76 increased by 112,100 MT, primarily reflecting increased commitments to the EC, Japan, Taiwan, and Canada. Commitments to unknown destinations declined. Exports during the week totaled 288,900 MT, down 145,300 MT or 33 percent from the previous week's 434,200 MT export volume. The major takers were Japan (102,700 MT), the EC (90,800 MT), Spain (41,000 MT), and Taiwan (27,000 MT).

During the first 13 weeks of 1975/76, soybean exports have averaged 315,000 MT per week. With the St. Lawrence Seaway scheduled to close on or about December 18, trade analysts expect this, in addition to other seasonal factors, to slow the rate of soybean exports since corn and wheat shipments are commanding most export elevator capacity at the Gulf.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 36,700 MT, primarily reflecting increased commitments to the EC, Spain, and Poland. Commitments to East Germany and unknown destinations declined. Exports during the week totaled 75,100 MT, slightly above the average weekly rate of 69,000 MT through 9 weeks of the season. The major takers were the EC (38,300 MT), Spain (19,600 MT), and Poland (10,500 MT).

Cotton: The apparent export commitment in 1975/76 for Upland cotton remained unchanged as buy-backs and cancellations just about equaled new sales, with both at a low level.

Both U.S. and foreign prices firmed on the basis of better demand in the United States and lower crop prospects in the USSR, Pakistan, and Brazil. However, U.S. prices firmed more than those for other growths, increasing the asking price differential between U.S. and other cottons to the highest level in 8 weeks.

Outstanding export sales of rice as of November 30, 1975 were 324,000 metric tons, 43 percent below a year ago, mainly reflecting reduced sales to other Asian-Oceania countries under PL 480 programs. For the current marketing year, 370,000 metric tons had been exported, some 181,000 metric tons less than a year ago.

Rice marketing year is August 1 thru July 31.
